Dyersville's Newest Industrial Park

Grading has started at the new Industrial Park West of Dyersville on Hwy 20. (At the top of the photo is US Feeds and the city of Dyersville is in the upper right corner of the photo). This Industrial Park was the farm of Larry Tegeler.

Industrial lots and a street to the lots are being graded and a retention pond is being built.

I was surfing the internet the other night and thought I would go the government database and look up who in the 52040 zip code was involved in aviation. The following is the list of active people and their ratings. I know there are other pilots that are inactive that would not show up on this list.

Airmen Database Search Result

Number of certificates found: 17

Rules of Flying

7. When in doubt, hold on to your altitude. No one has ever collided with the sky.
8. A 'good' landing is one from which you can walk away. A 'great' landing is one after which they can use the plane again.
9. Learn from the mistakes of others. You won't live long enough to make all of them yourself.

Happy Thanksgiving
