City Representatives

2008 Calendar Available

This years calendar has been printed professionally and is available for a \$12.00 donation to the airport.

The donation can be sent to Dyersville Area Aviation

104-5th St. SE

Dyersville, Iowa 52040

The airport is a non profit corporation and the funds go toward the maintenance and upkeep of the airport. The monthly aerial photos are of New Vienna, Guttenberg, Dyersville, Petersburg, Worthington, North Buena Vista, Luxemburg, Bankston, Balltown (before the Breitbach fire) and Holy Cross.

We only had 25 printed professionally so order soon. These calendars you won't throw away after 2008. They are collectors and freeze the towns in 2007

Dyersville Airport has a new Web Site.

Keith McCarraher, president of Dyersville Area Aviation along with a group of seniors at Clarke College are in the process of setting up a new airport web site. Completion will be May 2008 or before. You can check it out on www.dyersvilleairport.com The site is up and running but every day there are additions.

We hope to keep everyone up to date on the happenings at the airport through photos, newsletters posted, history of aviation in Dyersville and an event calendar. Look it up often. We hope it will be an asset to the community and the airport.

Correction- - -

Clancy Hess called after last months newsletter came out and said I mad a mistake. He did not fly for TWA - - - He flew for American Airlines.

Clancy will be inducted into the Illinois Aviation Hall of Fame in May.

Congratulations Clancy.

Airline Humor

From a Southwest Airlines employee: "Welcome aboard Southwest Flight 245 to Tampa . To operate your seat belt, insert the metal tab into the buckle, and pull tight. It works just like every other seat belt; and, if you don't know how to operate one, you probably shouldn't be out in public unsupervised."

"In the event of a sudden loss of cabin pressure, masks will descend from the ceiling. Stop screaming, grab the mask, and pull it over your face. If you have a small child traveling with you, secure your mask before assisting with theirs. If you are traveling with more than one small child, pick your favorite."

Bio Energy - A study in black and white

Dyersville Airport – a study in white

Gene Siegert and Archer 6554C

Since we were unable to fly off Dyersville airport, I enlisted the help of Gene Siegert of Dubuque to pilot his Piper Archer for the photos. The airport has been closed for the month of December and January. From the looks of the photo, it will take some serious thawing before our airport is available to us.
