Notice the black strip in the center of the above photo – that is the runway and it is open for use. With the help of Ron Radloff and Fred Lansing, their snow blowers, and Craig Kramer with his blade (left photo), the runway was plowed and blown. It was used on Sunday the 8th of January and the pilots said it was in fine shape.

Although it is not as convenient, winter flying is always smoother and the planes fly better in the cold air.

Fred Lansing of Lansing Brothers Construction, Luxemburg unloads the equipment to blow the windrow.

It takes good size equipment to keep the runway open after a snow fall.

Everybody gets a chance to “play” in the snow. Craig Kramer cleans the snow off his windshield.

Pilot Thoughts

Son, you're going to have to make up your mind about growing up and becoming a pilot. You can't do both.

There are only two types of aircraft -- fighters and targets.
