Holladay's have their book published

Meredith and Dana check out the places to see in Dyersville

Last July Meredith and Dana Holladay started on a trip that both had dreamed about - - To fly a Piper Cub around the lower 48 states and land or touch down in every state. In their planning they contacted Bern Heimos (the photo journalist from California). Bern flies his Piper Cub all over the US every summer and has stayed in Dyersville several times. Bern gave them the advice they needed and July 1, 2012 they left the east coast on their two month adventure.

On July19, they landed in Dyersville and spent hours touring. When they returned to the airport we were able to spend some time talking and Meredith mentioned she was writing a book about the adventure. This month I received a copy. Dyersville Airport and Bern Heimos were mentioned in the book. By coincidence Dana and Meredith stopped for fuel in Santa Rosa, NM and who was at the pumps refueling - - Bern Heimos. The name of the book is "Fly The Airplane". It's a human interest story about the flight and how she dealt with becoming pregnant the first week of the adventure.

Runway gets its annual rolling

With the help of Phil DeShaw's roller Dave Kramer got the runway rolled for the year.

What a difference that makes. The first time I landed I had to look out the window to see if was on the ground and the wheels were going around. It's so smooooooth.

Visitors in April

Steve Wagner from Dubuque graced the airways around Dyersville in Dick Anderson's Luscombe and stopped to kick tires.

Fred Lansing dropped in to say Hello.

Bill and Elaine Fitch along with Nick Hersch from Dubuque flew their 172 Cessnas to Dyersville and checked out the runway.

Friends, neighbors and pilots enjoy the 70 degree day at the airport

Nick is ready to leave.
