**The airport makes a perfect back drop for your wedding album - - especially if the groom is a pilot and members of the wedding party are pilots.**

May 24 was the wedding day of Tim Wieneke and Allie Riesburg (now Mr. & Mrs. Tim Wieneke), After the ceremony the wedding party was transported to the airport for a few photos. We at the airport wish Tim and Allie many years of happy flying.

**Another Ercoupe Graces the airport**

Wayne Messamaker of Clarinda, Iowa called the airport and asked if he could use the courtesy car. He was coming to look at a piece of equipment. I happened to be at the airport when he landed, and saw what he flew in. - - A silver Ercoupe. The fellow has good tastes!!!!!!

You don't have to have an airport the size of Dubuque Airport to bring in business.

**Quote worthy (from Fred Lansing)**

If helicopters are so safe, how come there are no vintage/classic helicopter fly-ins?

In flying I have learned that carelessness and overconfidence are usually far more dangerous than deliberately accepted risks. (Wilbur Wright in a letter to his father in 1900.)

A helicopter is a collection of rotating parts going round and round and reciprocating parts going up and down – all of them trying to become random in motion.

---

Nick Hirsch and Bob Rogers flew to Dyersville to check out the Cessna 140 that has been here for the past five months. The Cessna clipped a snow bank while taking off and damaged the prop. Nick is a mechanic and serviced planes at the Dubuque Airport for many years.

**Model Airplanes Will be flying July 18 & 19**

Larry Kramer is coming from Florida with his jets the week of July 14. The group will be flying every evening that week and will have two full days of flying on July 18 and 19.

The flyers are planning on just flying for fun – no planned ceremony.

## Events Calendar 2014
