My mother always said, "Be careful what you pray for, it may come true". We have been wanting to buy the airport for all the years we rented it. A short time ago, Dennis Thier called me and said the property is for sale and we had the first chance to buy it. After a little thought and nerve settling, I signed the papers and gave them the down payment. The airport property is now ours (I hope to set up an entity that people can buy stock and ensure the airport will be here for generations).

Ever since we built the airport, Dennis has been more than fair and supported the airport. It has been wonderful renting from him. Now that the airport will be permanent, we can start planning and improving the infrastructure and enticing more pilots to move their plane to Dyersville.

If anyone is interested in supporting, joining the airport owners or build hangars for their planes you can contact any of the board members.

Another bit of good news

Mike Marr, Airport inspector for the Iowa Department of Transportation inspected the airport this month and gave us a thumbs up.

A visitor from Sioux City flew to Dyersville to visit Tim Wieneke. Before leaving Tim and his friend flew around NE Iowa to view the area.

Progress on Hwy. 20

Left side of the photo is the Dyersville Industrial Park and Farm Tek is on the bottom right.

Progress on the Delhi Dam

There is still a lot of work to be done on the dam. Rumor had it that they would be filling it this fall.

Safety Lectures On Planes...!!!

"In the event of a sudden loss of cabin pressure, masks will descend from the ceiling. Stop screaming, grab the mask, and pull it over your face.

If you have a small child traveling with you, secure your mask before assisting with theirs. If you are traveling with more than one small child, pick your favorite."
