Annual Model Show

The annual model show again this year was a huge success. It not only drew spectators but also model pilots from Wisconsin, Des Moines and the Kramers from Florida. Larry and his mother Bula came up from Florida so fly with the local pilots.

Photos by Laura Haas

We had a lot of speed this year. Tym Theisen and Larry Kramer both had jet models. I was told the speed 180 – 200+ mph.

These models came in all sizes and colors. They ranged from fast moving jets to slow Piper Cub models. The engines on the larger planes can range up to 150 cc's on propeller planes and 95 lbs of thrust on the jets. (I remember my only motor cycle had a 125 cc engine.)

Jerry Kramer (pilot and announcer) gives Mayor Al Haas pointers.

A quite evening in July is the perfect time to enjoy the outdoors and hone your flying skills.

Ernie Weld of East Dubuque, IL. is practicing flying his power chute. Because he is still getting familiar with the chute, he wanted a safe place to build hours flying and this was the place he picked.

Yes, the airport is a place you can have fun, but it is also educational, and good for business.

Events Calendar 2015

Aug 2	Flight Breakfast	7:30 – Noon	Cresco, IA	(CJJ)
Aug 4	Tues. nite Grill Out	5-8 pm	Vinton, IA	(VTI)

Aviation 101

Gravity never loses! The best you can hope for is a draw!

Takeoff's are optional. Landings are mandatory.

Try to keep the number of your landings equal to the number of your takeoffs.

Every one already knows the definition of a 'good' landing is one from which you can walk away.

But very few know the definition of a 'great landing.' It's one after which you can use the airplane another time.

Work on the Southwest part of Dyersville has begun. In the foreground, dirt is being moved at the Industrial Park and the background dirt is being moved for the new interchange.
