Dubuque EAA Chapter 327 met in Dyersville

The Dubuque EAA Chapter held its October meeting at the airport. Twenty-five members attended. Half flew in and the other half drove in. The comment was made that with the road construction on Hwy 20, it was easier to find the airport by flying than it was driving.

We were able to have the meeting in the new pilot lounge. Last year two of the meetings were held in the rain and one meeting was so cold we all wore winter coats. Those meetings were held in the cold hangar.

Dave Kramer told the group that the airport property was purchased from BARD Materials. It is being purchased by airport supporters and will assure that we will not lose our third airport. Dave also told the group that stock was available and they could be a proud owner and supporter of Dyersville Airport.

Progress and finishing touches on the pilot lounge

Turkey River valley after the rain in Northern Iowa.

Fred Lansing wanted photos of the Turkey so we hopped in his helicopter and toured NE Iowa.

The Turkey did not get in the town of Garber but it was close.

Aviation 101

It's better to be down here wishing you were up there, than up there wishing you were down here.

A thunderstorm is never as bad on the inside as it appears on the outside. It's worse.

Dyersville viewed from the water tower South of Hwy 20 taken by Paul Curt, Com-elect as he worked on the transmitter for internet.
