**Time to invest to make the airport permanent and save
the investment we have**

July 1 we started to collect the money for the stock in the airport. Every \$5,000 check gives you 3% ownership. This airport has been good for business, education and entertainment. We've had companies fly in to pick up semis that have been repaired, tourists to visit the Field of Dreams, Dyer House, Farm toy Museum and Basilica. This little air strip has been good for the area. We must make it a permanent asset. If anyone wants to be part of this, call Dave at 563 875-8590.

While working on the new Pilot Lounge, a plane flew the pattern and landed. We thought it might be Bill Barnes from Dubuque to check on the construction. It turned out to be Glenn and Russel Kinneberg of Spring Grove, MN and Minneapolis. Russel is Glenn's son and they both have pilot licenses. Russel bought an Archer, picked up his dad in Spring Grove and started touring Iowa. They decided to take a ride and landed in Dyersville. Russel's goal is to land at every airport in Iowa.

Delhi Lake is appearing again

Water is starting to back up behind the new dam and spillway. As you can see, resident cannot dock their boats yet. Some say the lake will be full this fall.

Aviation 101

A thunderstorm is never as bad on the inside as it appears on the outside. It's worse. Things which do you no good in aviation: Altitude above you. Runway behind you. Fuel in the truck. Half a second ago. Approach plates in the car. The airspeed you don't have.

Hwy 20 project moves along

Traffic is not driving on the new side of the four lane

Ron Radloff, Paul Ahern and Tony Mineart discuss the construction of the new pilot lounge.

We will soon have indoor plumbing (bathroom). This is the 20th year of the airport.
