The “Flyers” baseball team has been together through their baseball career. They have played their final game this summer and because they are the “Flyers” they thought it would be nice to have their team photo with an airplane. The players were: in alphabetical order, Mitchell Brant, Cole Burger, Josh Engler, Bennett English, Riley Fangman, Tom Jaeger, Michael Keegan, Victor Meyer, Luke Olberding, Adam Wessels and Jack Westhoff

Railroad bridge on the Turkey River at Millville was in danger of going out because of debris and logs blocking the water flow. The railroad crew was called out with a crane to get rid of the danger. Notice the crew on the tracks. Northern Iowa had six inches of rain in a short time to cause the problem.

### **A good reason to be a pilot**

A priest dies and is waiting in line at the Pearly Gates. Ahead of him is a guy who's dressed in sunglasses, a loud shirt, leather jacket, and jeans.

Saint Peter addresses this cool guy, "Who are you, so that I may know whether or not to admit you to the Kingdom of Heaven?"

The guy replies, "I'm Jack, retired airline pilot from Houston."

Saint Peter consults his list. He smiles and says to the pilot, "Take this silken robe and golden staff and enter the Kingdom."

The pilot goes into Heaven with his robe and staff.

Next, it's the priest's turn. He stands erect and booms out, "I am Father Bob, pastor of Saint Mary's for the last 43 years."

Saint Peter consults his list. He says to the priest, "Take this cotton robe and wooden staff and enter the Kingdom."

'Just a minute,' says the good father. 'That man was a pilot and he gets a silken robe and golden staff and I get only cotton and wood. How can this be?'

"Up here - we go by results," says Saint Peter. "When you preached - people slept. When he flew - people prayed."

The rain was beneficial for the property owners of property behind the Delhi Dam. The water has been collecting behind the dam and the rain helped. At this point the water was one foot from full. As of now, the level is back to normal.
