Summer must be here

The summer chores have started, Craig, Fred and Dave cut the grass for the first time this year and they were interrupted by an airplane.

Steve Wagner of Dubuque could not pass up a beautiful Sunday. Steve was flying around and saw the activity at the airport. He landed to say hello. That is always nice because it gives us a break from cutting and gives us time for "hangar talk".

Sept 9	Dubuque	EAA Breakfast	

Airport busy over the weekend

Dave Hogan flew in and spent Memorial Day Weekend in Dyersville.

The airport got a call from a pilot. He was coming for a tractor sale. He wanted to know about the condition of the runway. The length, surface, type of fuel we sell. When we started our conversation, I ask him what he

would be flying. When he told me, we both started laughing. He had a King Air. He needed a longer runway and hard surface. I referred him to Monticello or Dubuque.

Dyersville Airport - Current Weather

If anyone wants to check the "Official" weather in Dyersville, just go to www.dyersvilleairport.com. Check out our new weather station. We are working on a camera facing down the runway (looking West) for storms and incoming flights. Our camera system was hacked and is now being fixed. It should be up and running shortly.

Aviation 101

Things which do you no good in aviation: Altitude above you. Runway behind you. Fuel in the truck. Half a second ago. Approach plates in the car. The airspeed you don't have.

Speed is life, altitude is life insurance. No one has ever collided with the sky.
