Tourists From Chicago visit Dyersville

Jason Noll from Chicago flew here from Midway Airport in Chicago to visit the Field of Dreams.

Our visitors needed transportation so Craig Kramer put a sign on the the sides of the car saying "Courtesy Car Dyersville Airport". It doesn't hurt to advertise.

The University of Dubuque has been using the airport for training.

It must be challenging for some students. They are use to a 6,000 foot

runway in Dubuque and come to a 2,700 foot runway in Dyersville.

Model Fly In – Sunday, July 29, starting at Noon.

The model flyers will be showing their stuff from Noon until ??????. They will fly until they get tired or the sun goes down.

It's a free show so bring the blankets and lawn chairs and see some good family entertainment.

Mower shed gets put back in place

Our tractor shed pickup and moved by one of our strong winds this summer. Now it is finally back in place. Fred Lansing picked it up and moved it back where it belongs. With the help of Craig Kramer, Paul Ahern and Tony Minart it was squared and anchored in place. The mowers have a home again.

The 172 had the annual and along with it a little fiber glass Repair. Tony Mineart shows his talent in this repair. He will also be one of the pilots at the model airshow.

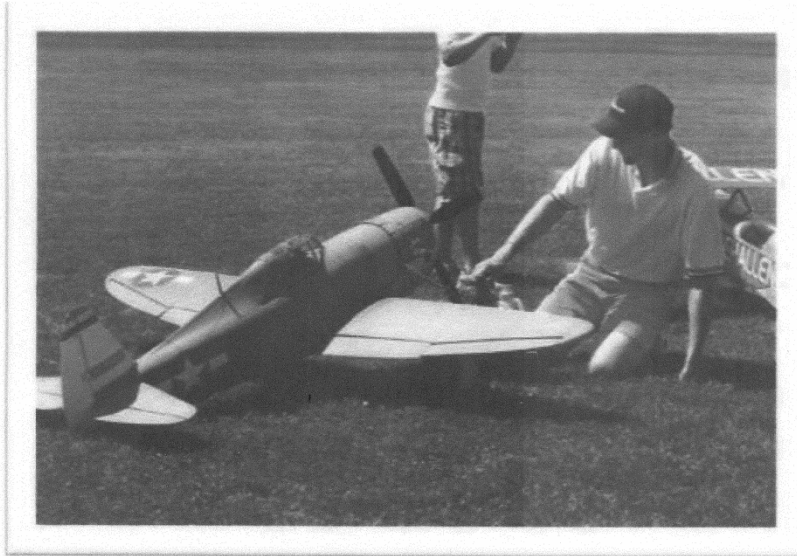

Annual Radio Control Airshow

Dyersville Airport

Sunday July 29, 2018 Noon to 4 PM

Come out for a great day of watching airplanes. See local pilots show their skills.

Flying and on display will be WWI and WWII models, jets and many other models .

Bring a chair, cooler and relax and enjoy the airshow.

Lunch and beverage (by donation to support the airport)

The show is free and a true family event.
