Treats from the Ninety Nines

Elaine Fitch representing the "Ninety Nines, an international woman's pilot association, flew into Dyersville Airport to bring some Christmas Cheer (a plate of cookies) to the pilots gathered there.

Instead of a December meeting the women fly to local airports and deliver Christmas Cheer. Pictured are Elaine and Bill Fitch, Phil DeShaw, Feed Lansing, Joan Kramer and Randy Schuster.

Pilots

Fighter Pilots: Cold, steely eyed, weapons systems managers who kill bad people and break things. However, they can also be very charming and personable. The average Fighter Pilot, despite sometimes having a swaggering exterior, is very much capable of such feelings as love, affection, intimacy and caring. These feelings just don't involve anyone else.

Words of Wisdom From Aviators

• Flying is a hard way to earn an easy living.

• Both optimists and pessimists contribute to society. The optimist invents the airplane; the pessimist, the parachute.
